and packing materials and containers may be included in meeting the value-content requirement specified in § 10.770(b) of this subpart.

### § 10.776 Indirect materials.

Indirect materials are to be disregarded in determining whether a good qualifies as an originating good under § 10.770 of this subpart and General Note 27, HTSUS, except that the cost of such indirect materials may be included in meeting the value-content requirement specified in § 10.770(b) of this subpart.

### § 10.777 Imported directly.

(a) *General.* To qualify as an originating good under the MFTA, a good must be imported directly from the territory of a Party into the territory of the other Party. For purposes of this subpart, the words “imported directly” mean:

(1) Direct shipment from the territory of a Party into the territory of the other Party without passing through the territory of a non-Party; or

(2) If the shipment passed through the territory of a non-Party, the good, upon arrival in the territory of a Party, will be considered to be “imported directly” only if the good did not undergo production, manufacturing, or any other operation outside the territories of the Parties, other than unloading, reloading, or any other operation necessary to preserve the good in good condition or to transport the good to the territory of a Party. Operations that may be performed outside the territories of the Parties include inspection, removal of dust that accumulates during shipment, ventilation, spreading out or drying, chilling, replacing salt, sulfur dioxide, or aqueous solutions, replacing damaged packing materials and containers, and removal of units of the good that are spoiled or damaged and present a danger to the remaining units of the good, or to transport the good to the territory of a Party.

(b) *Documentary evidence.* An importer making a claim for preferential tariff treatment under the MFTA for an originating good may be required to demonstrate, to CBP’s satisfaction, that the good was “imported directly”

from the territory of a Party into the territory of the other Party, as that term is defined in paragraph (a) of this section. An importer may demonstrate compliance with this section by submitting documentary evidence. Such evidence may include, but is not limited to, bills of lading, airway bills, packing lists, commercial invoices, receiving and inventory records, and customs entry and exit documents.

### TARIFF PREFERENCE LEVEL

### § 10.778 Filing of claim for tariff preference level.

A fabric or apparel good described in § 10.779 of this subpart that does not qualify as an originating good under § 10.770 of this subpart may nevertheless be entitled to preferential tariff treatment under the MFTA under an applicable tariff preference level (TPL). To make a TPL claim, the importer must include on the entry summary, or equivalent documentation, the applicable subheading in Chapter 99 of the HTSUS (9912.99.20) immediately above the applicable subheading in Chapters 51 through 62 of the HTSUS under which each non-originating fabric or apparel good is classified.

### § 10.779 Goods eligible for tariff preference claims.

The following goods are eligible for a TPL claim filed under § 10.778 of this subpart:

(a) *Fabric goods.* Fabric goods provided for in Chapters 51, 52, 54, 55, 58, and 60 of the HTSUS that are wholly formed in Morocco, regardless of the origin of the fiber or yarn used to produce the goods, provided that they meet the applicable conditions for preferential tariff treatment under the MFTA, other than the condition that they are originating; and

(b) *Apparel goods.* Apparel goods provided for in Chapters 61 and 62 of the HTSUS that are cut or knit to shape, or both, and sewn or otherwise assembled in Morocco, regardless of the origin of the fabric or yarn used to produce the goods, provided that they meet the applicable conditions for preferential tariff treatment under the MFTA, other than the condition that they are originating goods.
